# Oversized Jeans

Women of all ages are starting to shift to looser fitting jeans. Since the Covid-19 pandemic, consumer consumption is considered with focus around comfort, versatility and longevity. As days become cooler and a bit more relaxed, so do our jeans! With Jean designs such as high waisted, pleated, tapered, flared, and baggy, it allows for freedom in movement and expression. Designs also demonstrate fabrics with responsible materials like recycled cotton, in which consumers value when purchasing.
